ABOUT THE INSTITUTE

Croatian Forest Research Institute is a public research institution owned by the republic of Croatia. Objectives and tasks of research are part of the National Programme for scientific-research work of Republic of Croatia, and Development Program of "Croatian Forests" Ltd, Zagreb (Hrvatske šume d.o.o.).

Institute's principle objectives are conservation and preservation of stability, productivity, biodiversity and genetic resources of forest ecosystems in

Within the national framework Croatian Forest Research Institute is working closely with the Ministry of Science, Education and Sports and "Croatian Forests" Ltd, Zagreb.

Within the international cooperation framework Institute's researchers closely collaborate in number of international research projects and programs with many foreign institutions such as EFI, FAO, IUFRO, etc. and more recently within the FP7 frame.

About EFISEE

EFISEE Regional office is a unit of the European Forest Institute which focuses its activities in South-East Europe. The office was launched in July 2012 with the support of the 9 forest research and education partner institutions in South- Eastern Europe.

EFISEE is conducting research, networking, information and advocacy for forestry in the SEE region with strong science-policy interface. These activities facilitate decision making processes by linking stakeholders to forestry issues in South-East Europe.

Donors

EFISEE is being hosted by the Croatian forest research institute, in Jastrebarsko, and is funded by the Ministry of Science, Education and Sports and the Ministry Agriculture.

Location of the meeting

University of Zagreb, Faculty of Geodesy, Kačićeva 26, Zagreb, Croatia

How to reach Zagreb?

By car

Very good highway network and connections to EU countries

By plane

Zagreb international airport

By train

**Welcome to
Zagreb!!!**
