

SCERIN-5: Pecs, Hungary

Wrapup

Garik Gutman,

NASA HQ

General

- Happy to see new countries involved
 - Would still be desirable to have Belarus and Lithuania involved
 - Western Ukraine (?) – link through Kiev SCERINers or CEU...
- Glad there is no language barrier
- Obvious enthusiasm since there is now a common goal to a tangible product

Specific

- Meeting – only a tool for networking
- Important organizational activities
 - Continuous inventory and statistics
 - Updating milestones
 - Tangible deliverables (publications, media, chapters in books, AGU/EGU visibility)
 - Summary of achievements published periodically

External Outreach

- US participation is critical, e.g. for proposals to US gov agencies or joint publications in US peer-reviewed journals
- Need more links/ reps to and involvement with EU funding agencies
- Try to involve stakeholders, political scientists, decision makers (with invited lectures)

GOFC-GOLD External Interactions

- Exchange of experience with other regional networks – opportunity: Networks Summit, reps should be responsible to convey all the ideas and aspirations from the group and share their “lessons-learned” and modus operandi
- Inventory not only the task for SCERIN: Senay (GOFC-GOLD coordinator) responsible for inventory of all networks and establishing the level of activity for each network

Visibility

- Through AGU and EGU
- Consider potential AGU publication in AGU Eos – I can lead a group effort to promote SCERIN to thousands of AGU members, like it was done for NEESPI (by Pasha)
- Emphasize contribution to NEESPI (it's already known at AGU level) with references to NEESPI publication in AGU Eos and the recent book (Gutman and Radeloff, 2017)
- Think about inviting reps not only from funding agencies but also from big private companies – Google appearance was good!

Continuity

- Important for visibility and for upper management at agencies, like NASA
- Glad to see good, real examples
 - Michai
 - Monika
 - Greg
 - Giorgi

Personal Contribution

- Glad to contribute not just by support but also by providing a piece of entertainment

Thanks to the Organizers
